## NEW EXCITECH EF463S AUTOMATIC EDGE BANDER

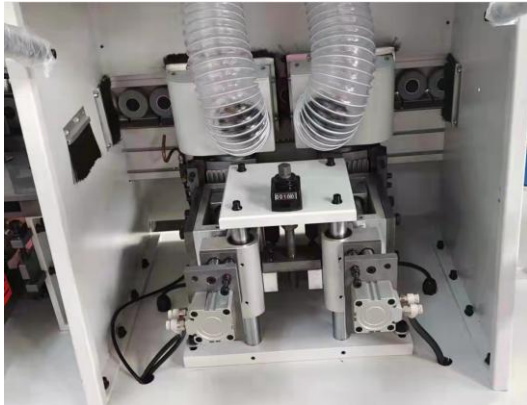

### Main parameters

Model	EV463S		
Workpiece length	Min 150mm	Input voltage	415V
Workpiece width	Min 80mm	Input frequency	50HZ
Workpiece thickness	10-60mm	Output frequency	200HZ
Edge thickness	0.4-3mm	Total power	15.7KW
Edge width	12-65mm	machine dimension	6280*850*1550mm
Feed speed	16-20m/min	packing size	6380*1050*1720mm
Net Weight	2205 KGS		

1. Tape total meter calculation function within a period (like one day, one week or one month)
2. Workpiece quantity calculation function within a period (like one day, one week or one month)
3. Machine running time calculation function within a period (like one day, one week or one month)
4. Workpiece thickness auto measurement, if panel thickness is over setting thickness, it pauses automatically
5. Add air blow device, ensuring clean workpiece; end trimming and scraping equip with dust collecting device

## Features

### Powered Rise and fall of the pressure beam

### Spray release agent & Pre-milling Unit

- Equipped with diamond tools for better cut and longer use.
- This device removes the burr or unevenness on the edge of the workpiece, leaving a smooth surface for the edge banding.
- Spray release agent for perfect pre-milling

### Gluing unit & heating lamp

- Top Glue pot. Easily change colours, or EVA to PUR Glues
- High precision glue roller ensures perfect gluing on various materials.
- Temperature is controlled by a meter heat preservation can be set.

### Edge press by rollers

- One big precision roller and 3 small to make sure the edge is pressed seamlessly to the workpiece.
- All rollers have their independent pressure control valve.
- The latter further ensures that the edge is properly pressed to the workpiece.

### End trimming!

- Two motors traveling on linear guides for end trimming.

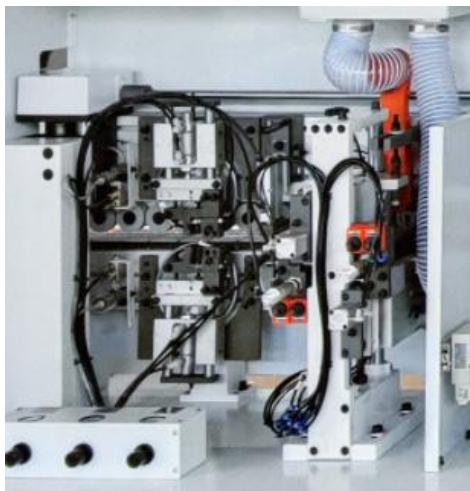

### Radius Trimmers

- Independent motors for top and bottom radius trimming of the edge tape

### Corner Rounding/trimming

- With 2 motors, this device works well with various edge thicknesses and invariably result in perfect round corner.

## Scraping, Flat scraping and off cut

- Non powered scraping unit suitable for PVC/ABS material edge banding up to 3mm
- Remove the tool marks on the edge banding during fine trimming

## Off Cut Group

- Removes the PVC tail which may be left behind by the scrapers. This ensures tail does not tangle on the buffers.

## Flat Scrapers

- Removes any extra glue from the top and bottom of the panel

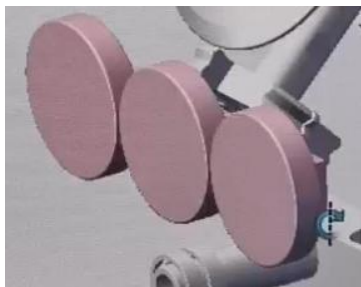

## Buffing unit and spray cleaning agent

- Reciprocating cloth wheels make clean and high gloss buffing.
- Spray cleaning agent for perfect polishing.

## Delta touch Screen

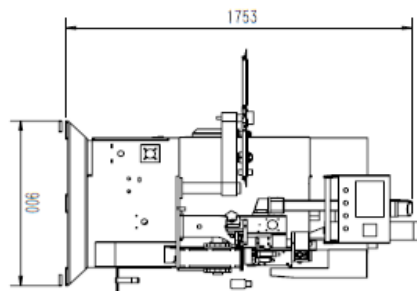

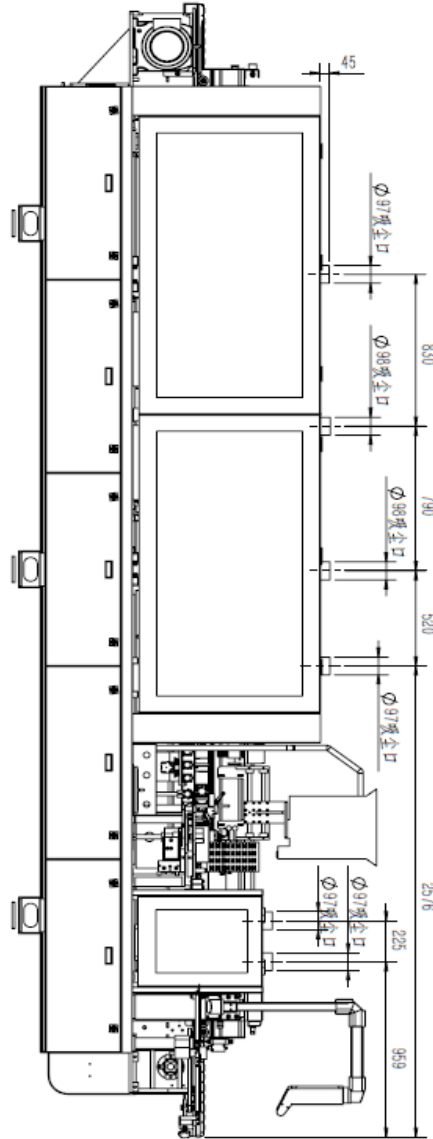

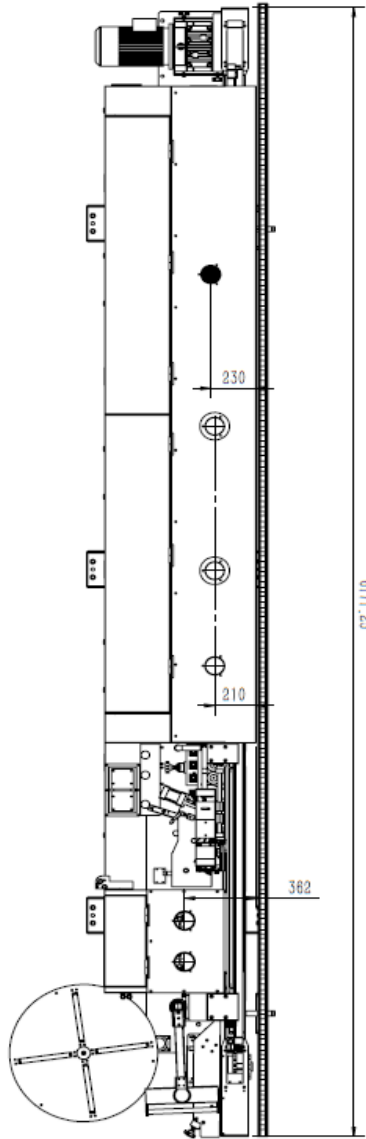

## Hinge Kit Protection

**Investment**  
**Special price for February**  
**Includes the manifold**

**\$ 55,953.00 + GST**

**\$ 50,000.00 + GST**

## Machine Layout

**CONTRACT OF SALE**

**PRICE** \$ \_\_\_\_\_ Australian Dollars plus GST.

**DELIVERY** Estimated delivery time is 2-4 weeks from date of order confirmation, subject to prior sale  
The machine price is free on truck, our works Prestons NSW/ your works Oak Flats. Crane charges to be paid by Excitech

**PAYMENT TERMS** A 20% deposit is required to secure your order, with the balance due prior to delivery.

Bank details as per below:  
Bank Name: ANZ  
Account Name: Excitech Australia  
BSB: 012430  
Account: 330834315

**INSTALLATION AND COMMISSIONING** Commissioning is included. If commissioning is included a Excitech technician will install and setup the machine correctly.
